EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

This application is in condition for allowance except for the presence of claims 8-10 directed to a Group non-elected **without** traverse. Accordingly, claims 8-10 have been cancelled.

The following is an examiner's statement of reasons for allowance:

Claims 1-7 and 11 are allowable over the prior art of record because the prior art of record does not teach or suggest the entire combination of elements of the tape cartridge set forth including a tape leader pin and a spring member being formed of the same type of material, the material being metal, wherein a surface hardness of a sliding surface of said spring member with respect to said tape leader is higher than that of said tape leader pin. Further, the prior art of record does not teach or suggest the spring member being formed from stainless steel and the sliding surface of the spring member being plated with chromium or nickel. None of the references of the prior art teach or suggest the characteristics of the spring member and leader pin as advanced above and such do not provide the necessary motivation, absent applicant's specification, for modifying the tape cartridge in the manner required by the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
